**Tomoko**

I'm from Tokyo in Japan. I want to be a teacher, and so I'm studying. My classes are very long, and I have to work hard. But I enjoy them. My friends and I live in an apartment together downtown. It's small, but we like it. In the evenings, we talk or play games.

**Guy**

My name's Guy. When I was young, I didn't like cooking, but now I love it. And that's good, because it's my job! I work in a place called Sammy's. We sell things like burgers and pizzas. It's next to the university, and a lot of our customers are students.

**Bruno**

I'm from Portugal, but I live in London now. I have a great job. I meet a lot of people, but I have to work at night sometimes. We're always busy, because it's a cheap place to stay! When guests arrive, they often have a lot of questions. For example, they ask about good restaurants near the hotel. I know London well, and I like to help them.

**Xinyi**

My parents are both doctors. So I decided to be one too! I was a student for a long time, but now I'm working and I love my job. I love to help people. And when they get better, I'm really happy.

### The National Museum, 23 Puerto Rico Boulevard

Jonny25 ★★★★★☆ 'A great place to visit'

The museum is next to the central station downtown. I read that it's expensive. But if you're a student, you don't pay anything. YES! It opens at 11 a.m. during the week and on Sundays. And it closes at 6 p.m. But on Saturdays, it opens at 9 a.m. And it's not busy then. It's always good to see a museum when there aren't many people. The place is nice and quiet, and you can really look at the art.

A lot of the rooms have paintings, or photos, or both. I loved the old black and white photos of the city in the 1900s. Some rooms don't have any paintings or photos, but they have other things. The old cars were really interesting. But the room with old cups, plates and glasses from different countries was really boring!

After three hours, we were hungry, so we asked about the museum café. But there isn't one (why not? – it's a big place!!!!). So, we went out and found a little café on the next block. My friend and I loved this museum, and we want to go back again soon. It's a great place to visit.
