

UNIT 4 QUIZ A

Mateo: Hi Simone. I'm doing a survey about how much we use social media. Can I ask you some questions?

Simone: Hi Mateo. Yes, of course. You know I love social media! I use my cell phone to chat with friends every day. Maybe I use it too much, but I love it!

Mateo: I can see you have a lot of apps on your cell phone. Do you use them all? Which ones do you like the best?

Simone: My favorites are Snapchat and Instagram. I use them every day.

Mateo: What about email?

Simone: No, I don't use email. In fact, I never use my email account. I communicate with my friends with Snapchat and Instagram. Oh, and of course, I use WhatsApp all the time. How about you, Mateo?

Mateo: I don't use social media very much because I don't think it is safe. I use social media to communicate with my cousins who live in Italy.

Simone: Do you? Do you FaceTime them?

Mateo: FaceTime? No, I never use that. I use Facebook to post photos about my life and to share pictures with my cousins. I use Skype about once a month to chat with them. It's really nice to see their faces!

Simone: Really! My mom and dad use Facebook, but I don't. I don't use Skype either. I use Facetime to chat with my friends. It's so easy to use. I love it!
