

## UNIT 4 QUIZ B

Good morning. Today we're going to talk about the online habits of different age groups. For example, how do young people spend their time online? And how do older people spend their time online?

Most young people between 15 and 30 years old love social media. They spend a lot of time online. For example, 67% of 15 to 30 year olds like to use the internet to shop online. Their favorite online activity, however, is video chatting.

People between 30 and 60 years old go online less. For example, only 48% of people between 30 and 60 years old use the internet to shop.

People between 60 and 80 years old don't like technology and they think that social media is boring. Only 28% of people between 60 and 80 use the internet to shop online. They like shopping, but their favorite activity is to be with their families. People like to be with their wives, husbands, children and grandparents. They love their families and they love to be with them.

All of the people like to be with friends and they say that sharing time with friends, celebrating birthdays and having coffee with friends is important. This is the second favorite thing for all people. So our friends are very important to all of us!
