

## **EVOLVE LEVEL 2, Audioscript for Unit 12 Quiz B**

Reporter: Good morning, everyone. Today I am visiting a community garden here in Boston. It is a cold, foggy Saturday morning and I am freezing cold! But there are lots of people here this morning at the garden and they look like they are having fun. I'm going to talk to people, but first let me describe to you this amazing garden. Here in Boston there are about 200 community gardens and people tell me that there are probably about 100 more in school gardens. This is one of the 200 and I can see lots and lots of green plants, some fruit trees and some lovely big paintings which the children have painted. The biggest painting is a picture of the skyscraper in Boston and next to it is are mountains and a beautiful waterfall. Now let's talk to one of the neighbors... Excuse me, you look like you are having fun. Tell me, why do you come here?

Mary: Hi. Yes, we love it! I am here with my husband Frank and our children. We come here every Saturday. Some days it's foggy like today, other days it's windy and rainy. But we still come! We meet our neighbors and we talk about what we've done during the week. The children play with the chickens or they paint. And we do some gardening and we eat some delicious fruit and vegetables. Look at these strawberries!

Reporter: They look delicious. Sorry... What's your name?

Mary: Mary.

Reporter: Thanks Mary, and enjoy the rest of your morning.
