Read the email. Then answer the questions.

Hi Bea,

How are things? I wanted to call you this week, but I just didn't have time because work was really busy. I wanted to talk to you and tell you about Anya and Nick's wedding. Do you remember I told you that they decided to get married?

You're going to think this is a strange thing for me to say because you know I'm not a fan of weddings, and I usually can't stand going to formal events. But this was an amazing day! I can hear you saying, "No way!" Well it's true! When I got the invitation from them about three months ago, I didn't want to go. But I'm happy that I decided to go. I met some interesting people and it was a fun day.

I decided about a month before the wedding to go, and I bought a dress online. But it was horrible and it was too small! So, I borrowed a dress from Julia because I didn't want to waste more money buying another, and it looked fine.

Anya wore an amazing red dress. I think that her family were surprised and that they thought it was a strange color to choose. But she looked so cool. I think it was the perfect choice for her.

They had some great music and we danced for hours. I wanted to dance with Mario but he left early. I was disappointed because I wanted to dance with him. ☹️ But I still had a great time and I danced with a lot of people. I think the neighbors were angry with us though, because the music was very loud. When I got home in the evening I was so tired. I went to bed as soon as I got back!

Speak soon,
Paola

1 Why doesn't Paola usually like weddings?

2 Who lent Paola a dress?

3 Why were Anya's family surprised?

4 Why weren't the neighbors happy?

Life after high school

When I finish high school, I'm going to start my first job!

I went for an interview last week. It was a horrible interview because I said all the wrong things and I was so angry with myself afterwards. But they called me the next day to say that the job was mine! I was so happy. I'm going to be a salesperson in a department store and I'm going to work on the checkout. I love chatting to people, so I can spend all day talking to the customers. I also love shopping and I love spending money, so this is the perfect job for me!

Jisu

I'm going to go to college when I finish high school. I'm going to study history, so I'm going to leave home and have a roommate. I think it's going to be really cool living without my parents and doing my own cooking. My dad's an amazing cook and when I was a child he taught me how to cook simple dishes. Now I can cook some interesting dishes, mainly vegetarian, and my dad always gives me good advice on cooking. I think he's proud of the fact that he taught me to cook so well. Before I go to college I'm going to go on vacation with my parents. We're taking a trip to Florida to stay with my grandparents.

Raissa

I have some amazing plans for when I finish high school. I really want to learn to drive. So, first I'm going to get a job at a local store, because driving lessons are expensive. It was my birthday last month and mom gave me some money. I wanted to buy a new laptop but I decided that they are too expensive, and my old one is fine. I'm not going to waste the money, I'm going to save it to pay for the driving lessons. My mom says that I'm crazy because there is too much stress and traffic in our town and that we don't need another driver. But she also says that when I pass my test, I can borrow her car.
