

EVOLVE LEVEL 3, audioscript for Unit Quiz 10A

Sarah: Hi, Daniel. Hi, Liz. I'm doing a project about online shopping. Can you answer a few questions?

Daniel: Of course.

Sarah: OK. First, do you prefer buying in stores or on the internet?

Daniel: Well, it depends. If it's something fragile, then I don't buy it on the internet in case it gets damaged. Once we bought some plates online, and when they arrived, we opened the box ... and all the plates were broken.

Liz: Yes, but we sent everything back, and they gave us our money back. Later we found the same set of plates online for less money, so it was fine in the end.

Sarah: Would you buy food online?

Daniel: Actually, a friend bought me fresh vegetables as a birthday present. The food was fresh, and the quality was excellent.

Liz: The only problem was that we had to eat it quickly because we couldn't store all of it in the fridge. But we do all our normal food shopping at the supermarket. It's nice to choose the products, and sometimes I want to check the quality.

Sarah: So, would you buy food online?

Daniel: No, I don't think so.

Liz: No.

Sarah: OK. What do you buy the most online?

Daniel: I buy books the most.

Liz: We also pay for our flights and hotels online. And sometimes we pay for dinner in a restaurant online because it can be much cheaper. But, like Daniel, I buy books online more than anything else.

Sarah: Is there anything you prefer to buy in a store?

Daniel: Personally, I prefer to buy clothes in a store because I like to try things on to see if they fit.

Sarah: And you, Liz?

Liz: I buy a lot of clothes on the internet. It's easier, and if there's a problem, I send them back.

Sarah: Thanks, guys!
