

EVOLVE LEVEL 3, audioscript for Unit Quiz 6A

Javier: I love this place, Alex. I'm so happy that I live here now! The air is clean. There's not much pollution ... I'm really completely happy here.

Alex: Where did you live before, Javier?

Javier: I lived in a really big city. It was full of cars and smoke and trash. There was trash everywhere. It was terrible. There were traffic jams every day and garbage in the streets. I didn't like it at all.

Alex: We're definitely lucky to live here. In this town, there's so little traffic that you can hear the birds sing! It's just beautifully quiet. And if people see garbage in the street, they pick it up!

Javier: I know. That's the thing – if you keep a place clean and neat, people won't mess it up.

Alex: Right. It's really simple, actually!

Javier: I was always frightened in the city where I lived before. We even had security people at our building.

Alex: Wow, that's amazing. Here you can get around safely pretty much anytime.

Javier: Yeah ... every day there was graffiti on our apartment building. And almost every night I could hear people in the street shouting angrily. It was scary.

Alex: There's very little noise and almost no crime here, either. In fact, there's so little crime that there are very few police officers.

Javier: I know! It's fantastic. And you know what? In my old city, all the buildings were just concrete. There was very little land left to build nice houses on. Here, we have parks and green spaces.

Alex: Yes, we do. Let's go and play soccer in the park right now!
