

## Unit Quiz 11A

- Kristina: Hey, do you remember the first day of college? It seems so long ago now, doesn't it? I can't believe we're already in our second year. Seeing the new freshmen arriving here this morning really brings back memories of those first few days.
- John: I know what you mean. Time is going by so fast. It's frightening to think we'll be graduating two years from now.
- Leo: But two years is a long time. A lot can happen.
- John: I hope so, because my grades will need to improve a lot!
- Kristina: I don't think I saw you guys on the first day, you know. All I can remember is that I was so excited to be finally starting college. My brother helped me pack and drove me down here because my parents were both working at the hotel. I forgot to say goodbye to him because I was so excited about meeting my roommate. What a bad sister I was!
- Leo: I remember seeing you at the party that evening. The party for the freshmen.
- Kristina: Did you? That party seemed so awesome at the time. My parents didn't let me go out much in the evening, so for me it was like, "Hello new life!"
- John: I didn't go to that party.
- Leo: No?
- John: No, my parents drove me down here the next day and so I had to go straight to class. I remember arriving late, and it seemed like you all knew each other already. I felt so shy, so nervous. It was silly I guess, because you were all new too.
- Leo: My memory of that first day is the science lab. It was just amazing. I'd been looking forward to working in a real lab for so long, and I remember thinking the facilities in the biology department were the best thing I'd ever seen.
- Kristina: Yeah, good times.
