

## Unit Quiz 7A

Interviewer: Hi, good morning. Would you mind if I asked you a couple of questions?

Boy : Well, I don't have much time. I'm going to class. But... what's it about?

Interviewer: I only need couple of minutes, I promise. Look, I'm a journalist and I'm writing an article about how much or how little young people use social media. So, if you could spare a couple of minutes, that would be great.

Boy : Cool. What do you want to know?

Interviewer: First of all, what social media apps do you use? Facebook, Snapchat, Instagram...

Boy : (laughs) That's funny! Just yesterday I was asked what social media apps I used by a woman doing a survey on the street.

Interviewer: (mild laugh) And what did you say?

Boy : I told her that I had never used Snapchat and that I had used Facebook and Instagram for years. She also asked me how often I posted stuff online and how often I updated my status.

Interviewer: And you answered...?

Boy : I explained that I had posted a photo only a few minutes before and that I had updated my status in the morning. She also asked me if I'd ever tagged myself in photos, and I said that I had a few times.

Interviewer: Do you update your status every morning?

Boy : No. Only if I am doing something that I want my friends to know about. You know, when I'm at a cool place, or I'm feeling stressed about exams.

Interviewer: OK. Well, this has been really helpful. Thanks so much.

Boy: Ah, I just remembered. The woman also asked me if I was a lurker. I thought that was a very strange question. I explained that people my age love posting stuff and that I guess lurkers are more like my mom's age!
