

EVOLVE LEVEL 6, Unit Quiz 9B

- Andrea** You look tired, Luis. What's up?
- Luis** I had a terrible night's sleep. My neighbors had a huge party – on a Tuesday night! There must've been about fifteen people in their apartment all screaming and singing. I wouldn't mind if it was the weekend, but I have to get up at 6 in the morning and I need my sleep.
- Andrea** What did you do?
- Luis** I called the landlord. He wasn't there so I spoke to his wife. She was apologetic, but said she couldn't do anything until her husband came home. She suggested I record the sound on my phone as evidence. I ended up putting earplugs in, but I hardly slept. Do you have problems with your neighbors?
- Andrea** Not really, but there's a lot of traffic outside my house since we live on a busy street. After a while you get used to it, but when I get out of the city I really notice the silence. You used to live in the suburbs, didn't you? Did you like it?
- Luis** Well, there was less traffic and air pollution and I could take my dog for much longer walks! On the other hand, if you were sick it was more complicated to get assistance fast.
- Andrea** It's true, transportation in the city is much quicker.
- Luis** When I lived in the suburbs, before I bought my first car, I remember spending hours on the bus commuting to work. In the city, I can get to work in twenty minutes and even have time to go to the gym beforehand. Also, I used to eat my breakfast really fast because I had no time in the morning. Whereas now, I eat more slowly. My doctor says that's much better for digestion. So there are definitely some great things about living in the city!
